

Internship Presentation

Madara Liepiņa

BTP 2010

Warning!

Hello everyone!

- Since I have lost my voice
somewhere in Sweden, this will be pretty
quiet presentation!

Me and my idea

- I'm Madara and my business idea was to open a Dog Hotel.
- My internship place was a dog hotel "Helenas Hund Hotel" in Sweden about 4km from Arlanda airport.
- *There are 3 houses:*

1) Reception

- There owners can complete things with a documents and payments and also there were some cages where to leave day care dog if owners are in rush.

2) Day Care rooms

- There usually stay day care dogs, there are 3 rooms and in each 2 cages. In each cage normally stay 2 dogs. On the evenings owners came to take their dogs.

3) Dog Hotel

- Dog hotel has a 29 cages and there can stay 58 dogs and occupied particular season, such as Christmas are accommodated even more.

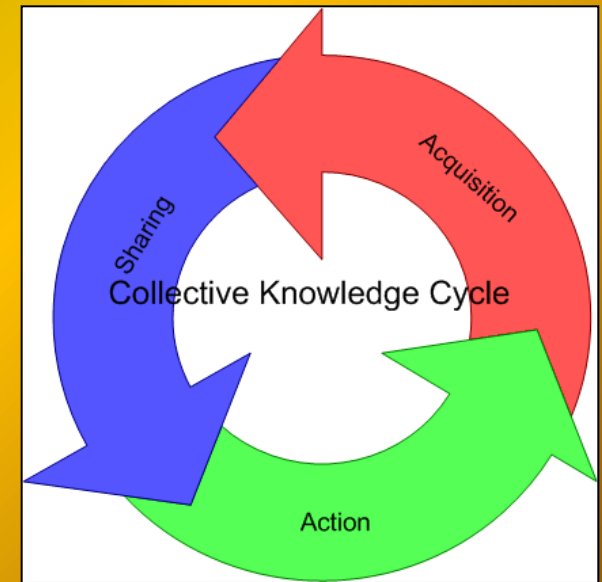

My tasks and activities

- I did all the same what other workers did there.
- So I feed and walking with the dogs.
- And also I took a part in big cleanings.

Gained knowledges

- I got more knowledge about how exactly dog hotel works
- Found out that actually it's not so difficult to maintaining Dog Hotel
- Understood that lot of things that I imagined I'll need for begining isn't so important and I can include them later.

Organization

- Also I found out some things that could be usefully for me in future when I would like to open my own dog hotel.

For example:

- Board –where was written some necessary information about dogs.
- Room where to prepare meals and organizat all feeding

- Also save hatch for dogs, so that they can come in and go out their selves, but with save lock, that on the night noone can get out!

- And double fence, for more safety.

Future Plans

- I have to study more about dogs and gain more knowledge from practice side before I open my own dog hotel.
- I could have some practice time in some other dog hotel or dog shelter, because in the way of working these places are quite similar.
- After more or less 5 years I will be able to open my own Dog Hotel and have enough practical knowledge to well manage this hotel.

My free time in Sweden

- I saw some really nice places in Stockholm, like:

1) Junibacken

2) Vasa museum

3) Skansen Christmas market

4) After this we went for some shopping and also took a walk in the Old city as well.

Afterwords

- Despite the inconveniences associated with living conditions, I really enjoyed my time in Sweden.
- This is a nice country and some day I would like to visit it again.
- Thank you!
